INVESTOR IN PEOPLE

## For the GP:

Vacuum therapy is the longest established method of treatment for Erectile Dysfunction (ED) and is appropriate for any man who does not respond to or is contraindicated for drug therapies. Vacuum Therapy is considerably less expensive than ongoing expenditure on medication and this is true for both the private patient and Primary Care Trusts, as it is usually a one off cost. Mediplus offers a comprehensive instruction and support programme to ensure every patient gets the best use from the system.

Who is eligible for an Osbon ErecAid™ Therapy Device on FP10 Prescription:

### Schedule II

The Osbon ErecAid™ Vacuum Therapy Devices for treating ED are listed in part IXA of the Drug Tariff.

Under Schedule II, certain groups of patients identified by the Department of Health are eligible for treatment at NHS expense.

### Patients with ED who suffer from one of the following conditions:

Diabetes, Spinal cord injury, Single gene neurological disease, Poliomyelitis, Severe pelvic injury, Prostate Cancer, Multiple Sclerosis, Parkinson's Disease, Spina Bifida, Prostatectomy, Radical pelvic surgery, Renal failure treated by transplant or dialysis.

### Writing an NHS Prescription:

Prescriptions for patients who are eligible under Schedule II categories should be written on an FP10 and clearly endorsed SLS (Special List Scheme). The prescription must include the name of the device, the order code and the PIP code.

#### ERECTILE DYSFUNCTION MANAGEMENT SYSTEMS

(Vacuum Therapy Devices)

		ORDER CODE	PIP CODE
Osbon ErecAid™ Esteem	<input type="checkbox"/>	XX-50	289-0713
Osbon ErecAid™ Classic	<input type="checkbox"/>	XX-02	289-0754

to be dispensed at a community pharmacy (order directly from Mediplus on 01494 551200)  
Patients who are not eligible for NHS treatment can order the system for themselves directly from Mediplus

## For the Patient:

**Vacuum therapy** is a safe, gentle, painless and very effective method of treating Erectile Dysfunction. It is clinically proven to be successful in over 90% of cases, even when other treatment methods have failed. Vacuum Therapy can be used in three ways: (a) to create an erection on demand, (b) to boost a natural partial erection within seconds, and (c) as an exercise to improve natural erections and recondition the penile tissues, by improving blood supply and tissue elasticity.

The ErecAid™ is very easy to use: you place your penis inside the cylinder and use the pump to create a vacuum. This draws blood into the penis giving you an erection in less than 3 minutes. Next, slip an erection maintenance ring off the cylinder onto the base of the penis. This lets you maintain an erection for up to 30 minutes. When you remove the ring the penis returns to normal. You can repeat the process as soon and as often as you like.

Over 40% of men who use The ErecAid™ are able to have intercourse again without having to use the system every time. The ErecAid™ System comes in a convenient carry case with comprehensive instructions, a 5-year warranty on the pump and cylinder and a professional telephone support service. Our trained personnel are available to help with any questions you may have on how to get the best from your ErecAid™ System.

#### The patented Osbon Pressure Point Ring

- ★ Four sizes
- ★ Allows normal ejaculation
- ★ Durable
- ★ Comfortable
- ★ Effective
- ★ Unobtrusive

**Warranty Policy:** All systems are supplied with a 5 year warranty on the pump and cylinder. In the event that either component is faulty, you may return these items to us for replacement free of charge.

If you wish to buy an ErecAid™, simply fill out the Order Form, signing and dating it at the bottom to exempt you from paying VAT on the price quoted. Send your order to the address shown on the form (if you are paying by cheque, please make it payable to Mediplus Ltd.). We will despatch your order discreetly packed.

**90 Day Refund Policy:** If you wish to return your Osbon ErecAid™ for any reason within 90 days of purchase we offer a refund of the purchase price less a £40 handling charge.

Systems that are returned **unused** within 10 days will be refunded in full. Systems must be returned by Recorded Delivery and you must obtain a Returned Materials Authorisation Number by calling us before returning the system.
